**RE: Utility Articles for Next Conference**

The following Final Articles A and C are submitted to each of you to acquaint you with the tariffs eligible for action or acceptance on or after August 30, 2006.

**“A” Final**

The following new miscellaneous item will be eligible for final consideration at the next Commission Conference and based upon a review of it by staff members of the Commission, I recommend approval.

**1. Sullivan Vigo Rural Water Corporation**

The utility is proposing to increase the connection (tap-on) charge for a 5/8 inch meter from \$695.00 to \$775.00. The reason for this increase is due to increases in labor and material costs. The tap-on charge for a meter larger than 5/8” shall be the actual cost of materials and installing the tap, but shall not be less than the charge of a 5/8” meter tap. If a road bore is necessary to complete the tap, the charge will be \$714.00 in addition to the \$775.00 tap charge totaling \$1,489.00. The utility also proposes to add renters to the Membership Fee charge. Cost support has been provided for the changes to the connection charges.
